Allowable Subject Matter

1. Claims 1-9 and 11-19 are allowed.
2. The following is an examiner's statement of reasons for allowance: the closest prior art to Suzuki, et al does not teach or fairly suggest, among other things, locating pairs of lines from the first set of lines, and pairs of lines from the second set of lines that together form the four sides of the abstract model of the generally rectangular shaped object in the image; and identifying pairs of lines for forming an abstract rectangular model generally conforming to the rectangular shaped object as defined in independent claims 1, 11 and 13. Likewise, the closest prior art to Sarachik does not teach or fairly suggest, among other things, locating pairs of lines from the first set of lines and pairs of lines from the second set of lines that together form the four sides of the abstract rectangular model of the surface mounted device (SMD) as defined by independent claim 8. It is for these reasons and in combination with all of the other elements of the claims that claims 1-9 and 11-19 are allowable over Suzuki, et al and Sarachik.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
